SHAWNEE HIGH SCHOOL

In perfect honour, perfect truth
and gentleness to all mankind,
You trod the golden paths of youth,
Then left the world and youth behind.
Ah, no! 'tis we who fade and fall
And you, from Time's slow torments free
Shall pass from strength to strength and
scale
The steps of immortality.

—John Buchan

One typical morning you wake up, rub the sleep from your eyes and suddenly, it hits you smack in the face: "Hey I'm a Senior!"

You think of all the years that you've dreamed of making it this far. You think back- way back- about twelve long years ago to the first day of school.

Remember it? Mom saying goodbye and kids crying, that smelly paste and construction paper, the round scissors and fat crayons.

You went through elementary school, making little friends, getting your first lick, playing kickball on the playground.

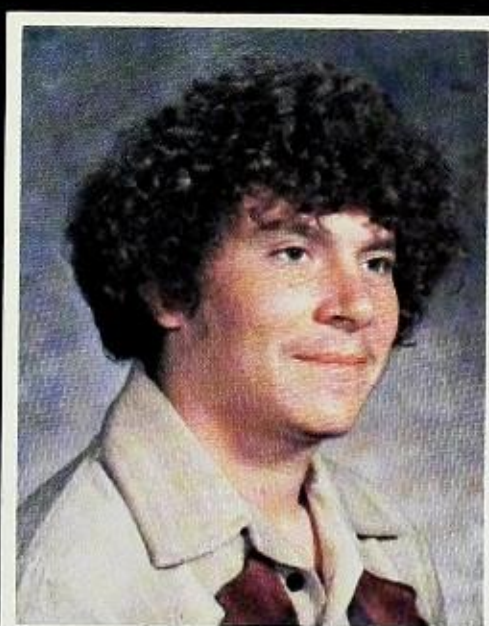

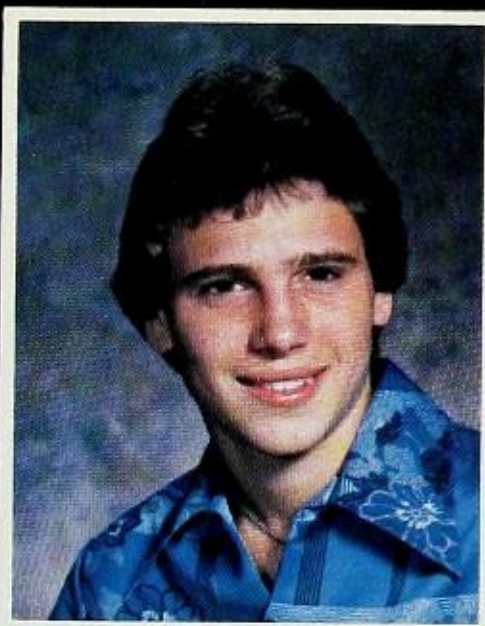

And soon, you went from a great big sixth grader to a little seventh grader. You felt like the lowest form of academic life on earth, a runt in a Pygmy tribe, lost in a forest of Juniors and Seniors. These were the years you prepared for life in big, bad Senior High School: the years of CORE, Home Ec, and Shop; several teachers instead of just one or two, the beginning of real homework.

Then, in a blur of teachers, friends and time, you have passed the Prom and Ring Day, suddenly you are in Grade Twelve. There's no class to look up to any more; your class is it. Everyone pays special attention to you because you'll be the one of the very next to "go".

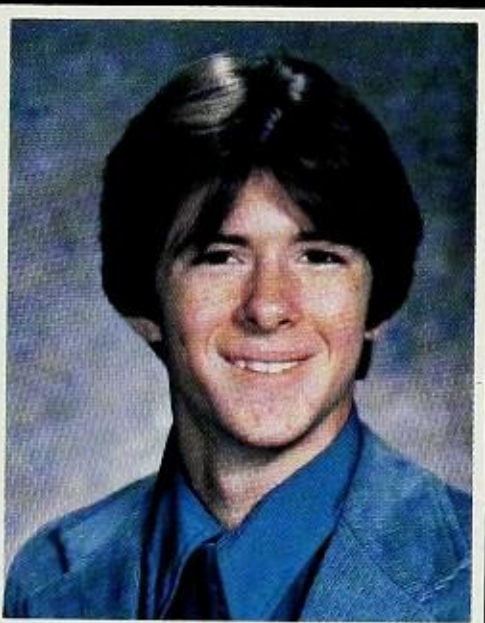

Every year, classes below are steadily pushing you and your companions closer and closer to the edge of the big, wide world. Now you've arrived. It's really just a small step before . . .

You wake up out of a daze and realize you're late. You quickly start into a daily routine that will end all too soon.

To the Class of 1979:

The faculty of Shawnee High School offers sincere congratulations to the graduating Seniors and we hope your learning experience in the family of fellow students and teachers at Shawnee has been both rewarding and successful. It has been a pleasure observing you mature and grow in your struggle toward self-realization. As parents and educators we know you will help shape the future for those to follow. Keeping in mind that learning is a never ending part of life, I would like to share with you the following words by Bayard Taylor:

"Learn to live, and live to learn,
Ignorance like a fire doth burn,
Little tasks make large return."

Sincerely,

John R. Whiting
